Direct Answer

End-of-day carrier shipping may be available from some licensed US pharmacies when you purchase **Vicodin (hydrocodone/acetaminophen)** online, but strict regulations for controlled substances can affect shipping speed and eligibility.

What Is End-of-Day Carrier Shipping?

- **Definition:** Packages shipped with end-of-day carrier service are picked up and dispatched at the end of the business day, often for overnight or next-day delivery.
- **Common Carriers:** Includes services like **FedEx**, **UPS**, and **USPS**.

Regulations Affecting Vicodin Shipping

Vicodin is a **Schedule II controlled substance**, so shipping is subject to strict federal and state regulations:

- **Prescription Requirement:** A valid prescription is always needed.
- **Identity Verification:** Pharmacies must verify your identity and prescription before shipping.
- **Shipping Restrictions:** Only certified and licensed US pharmacies can legally ship Vicodin within the USA.
- **Signature Required:** Controlled substances generally require an adult signature on delivery.

Does End-of-Day Shipping Apply?

- **Some Licensed Pharmacies Offer It:** After prescription and identity checks, select US pharmacies may provide end-of-day or next-day shipping for Vicodin.
- **Not Always Guaranteed:** Processing times for prescription verification and state laws may delay shipping beyond the same day.
- **No International Shipping:** US law prohibits shipping Vicodin internationally.

What to Expect When Ordering

1. **Provide Prescription:** Upload or have your doctor send it directly.
2. **Complete Verification:** Pharmacy verifies authenticity and your identity.
3. **Shipping Process:** Once approved, your medication may be shipped with end-of-day carrier service if selected.
4. **Receive Tracking:** You'll get tracking info and may need to sign for the package.
