What Is Codeine?

Codeine is a prescription opioid used to treat mild to moderate pain and sometimes cough. It is a **controlled substance** due to its potential for misuse and addiction.

Shipping Limitations for Codeine

- **Controlled substance regulations:** Codeine can only be dispensed with a valid prescription and is subject to strict federal and state shipping laws.
- **Prescription verification:** All reputable pharmacies must verify your prescription and sometimes your identity before shipping, which may delay processing.
- **Carrier restrictions:** Major carriers (FedEx, UPS, USPS) follow strict procedures for shipping controlled substances, and not all offer overnight delivery for these medications.

Nationwide Overnight Delivery: Is It Possible?

- **Rarely guaranteed:** Most accredited pharmacies do not guarantee overnight delivery for Codeine across the entire country due to regulatory, safety, and logistical reasons.
- **Urban vs. rural:** Expedited shipping may be available in select metro areas, but remote or rural locations often experience longer shipping times.
- **Processing time:** Even with express shipping, prescription verification and pharmacy processing can add 1–2 days.

Red Flags for Unsafe or Illegal Offers

- Pharmacies promising “guaranteed overnight” delivery for Codeine nationwide
- No prescription required or accepted
- No accreditation or licensing
- Unusually low prices or little customer support
